

PRINTABLE PLANNER PDF BUYER'S CHECKLIST

File Type

- ☐ High-quality PDF - not a document file or image file that requires specific software you may not have

Instructions Included

- ☐ Printing instructions included in the listing or download
- ☐ Trimming guidance included - especially for multi-page-per-sheet layouts

Design Details

- ☐ Explicitly designed for your planner size - not just “printble planner” with no size information
- ☐ Two-sided printing setup confirmed - binding margins alternate correctly for left and right pages
- ☐ Print “at 100%” or “Actual size” - no scaling required to reach your planner size

Page Count Reality Check

- ☐ A full dated year planner will not be only 1 or 2 pages - check that the page count matches what you’re expecting to receive

Listing Photos

- ☐ Photos show actual prints of the design, not only digital mockups
- ☐ Photos show the margin and binding edge - both left and right pages are visible
- ☐ Photos show the planner in actual use, not only a flat lay of the file on a screen

Reviews

- ☐ Look for comments about printability, margins, sizing, and customer service responsiveness.
- ☐ Don’t rely only on five star “cute”, “love it”, and “perfect” reviews - look for reviews with specific details about the printing experience

Is Anything is Unclear ...

- ☐ Message the seller before purchasing - a seller who knows their files well, will answer clearly and specifically
